ATLANTA, GA.

MONDAY EVENING, OCTOBER 26

BEANGING PRINCIPA The question of maximum priess for producand the necessaries of life, seems at this time to marm than good.

At present, "how much shall we give for an article?" may be the paramount question, but staless the signs of the times are fallacions, the day is not far distant whom we shall be lequiring whether such an article can be had at any price The best legislation for the reduction of prices is that which one ureg a and stimulates producthe maximum of prices, should take care that they do not inflict a fatal stab upon the productive Interests of the country. As we are now shut out from all the world by the blockade, we are our own soil and labor for austenance. If this

these prices, and, if need be, draw in her redundant circulation thus paid out by an increase of the taxes. Such a policy would be submitted able to that of fixing prices and flanding the the shunk. country with impressing officers who, in most instances, execute the duties of an ungrateful office in an ungracions manner, thus chilling the scuribilities of the producer and hardening his heart against the Government.

It is now the productive industry of the country, above all other interests, that must be forsered and cherished, and legislators cannot be mgida.

THE PRICE OF GOLD -The name of Meade's sion. The figures are too far apart.

treasurer have been elected. The Legislature, homsver, will be strongly " Union."

CHARLESTON AT OUR MERCY. Though weeks of endeaver and of battle may t be required to open the way to the city, We give below full and interesting extracts Charleston is now antirely at our morey. It com the correspondence of Fultan, the Amerismoking rules. From Cummins point General Gilmora will command its extremest suburb, whilst the iron-olad fleet, apphores a mile bejow amter, would pour shot and shell into the most all into our hands, or be destroyed.

ACTIVE OPERATIONS ANTICIPATED. Tuursday, Soptember 30 -The pention of affaits remain unclassed. Moultrie spend on Gregg this morning with more than usual spilefulness, and one of our monitors is raplying to perations grow monotonous by repetition. At her with an occasional dinsentant shall. Par time Fort Jehnson opens and throws shall Johnson is quiet to-day, see doubt admentshee or with an occasional filtrom-meh shall. Fort to Wagner and Gregg with an accuracy that therate by the advance battery which Gen. (ii). access the direction of affairs at Chickensega. Tacmas has grown of long practice. Moultris takes up more has constructed, and whose guns command takes com ly, by way of charge, Buttery Bee joins in, sen and the adjoining butterfor have been very d for a time affairs promise to grow lively autoying to our working parties about Port 1554; market quite excited. at it is only a promise. Sen Gilmore is too Wagner, their granuers having a periort range to wasts time in idle firing, and Morris of our position, and throwing their shell with alsad is as quiet as if there were neither a gun much precision. Gon. Gilmer's new works are our an artilleryman upon it. But it is not the en a scale of great range out to be partially anist of idlaness. In the mornings and even advancing. When the bombandment is renewed. ings long working parties can be seen going and cashing from the camps. The vicinities of Wagner and Grang (I have not hoard that these has yet eccurred, even in the kistory of this
